Professional Summary

Full Stack Developer specializing in the MERN stack with experience building scalable web applications, REST APIs, and AI-powered platforms. Skilled in React.js, Node.js, Express.js, MongoDB, Java, and Data Structures & Algorithms with a passion for solving real-world problems.

Education

Shri Ramswaroop Memorial University	2023–Present
B.Tech in Computer Science and Engineering	CGPA: 7.56

Experience

Co-Founder & Full Stack Developer	ByteBound — 2024–Present
- Developed and deployed scalable MERN stack web applications for startups and local businesses. - Designed responsive React.js interfaces and built RESTful APIs using Node.js and Express.js. - Integrated MongoDB databases, JWT authentication, and third-party APIs to deliver production-ready solutions.	
Smart India Hackathon (SIH)	Internal Round Selection – 2025
Selected at university level and contributed to frontend development, UI design, and project presentation.	

Technical Skills

Languages: Java, JavaScript, Python, HTML5, CSS3
Frontend: React.js, Tailwind CSS, Bootstrap
Backend: Node.js, Express.js, RESTful APIs, JWT Authentication
Database: MongoDB, SQL, Firebase
Tools: Git, GitHub, Postman, Docker (Basic), VS Code, Figma
Concepts: Data Structures & Algorithms, OOP, CRUD, API Integration, Responsive Web Design

Projects

SkillGap AI – AI Resume Analyzer & Interview Platform	Live
<i>React.js, Node.js, Express.js, MongoDB, Gemini API</i> - Developed an AI-powered ATS Resume Analyzer with resume scoring and interview question generation using Gemini API. - Implemented JWT authentication, MongoDB integration, and responsive dashboards for secure user management.	
PrintPassport – Passport Photo Generator	Live
<i>React.js, JavaScript, HTML5, CSS3, Canvas API</i> - Developed a web application that converts uploaded photos into standard passport-size photos for A4 sheet printing. - Implemented image cropping, resizing, background adjustment, and printable layouts using the HTML5 Canvas API. - Built a responsive interface with instant preview and high-quality printable output.	
DevTrack – Coding Progress Tracking Platform	Live
<i>React.js, Node.js, Express.js, MongoDB, Chart.js</i> - Built a MERN-based coding analytics platform integrating LeetCode, HackerRank, and GeeksforGeeks. - Developed APIs to analyze coding statistics, contest ratings, streaks, and problem-solving progress. - Designed interactive dashboards with charts, authentication, and performance insights.	

Achievements & Certifications

- Solved 100+ DSA problems across LeetCode and GeeksforGeeks.
- Smart India Hackathon (SIH) 2025 – Internal Round Selection.
- Namaste JavaScript – Akshay Saini.
- Claude Code in Action – Anthropic.
- MongoDB Overview – MongoDB University.
- AI Tools Workshop – Be10X.
